

DON'T LET THEM DRIVE YOU OFF THE ROAD

Your freedom and hard-earned money are under attack like never before. Support the group that stands up for drivers.

The ABD campaigns for:

- A fair deal for Britain's drivers, who are taxed many times over for using the road.
- An end to measures blatantly designed to take away road space such as Low Traffic Neighbourhoods (LTNs), under-used bus and cycle lanes. Apart from ruining the look of an area, they cause congestion and force people to drive further, burning more fuel.
- Firm action against those who deliberately block our roads, not setting them free to re-offend. Criminal conspiracy charges.
- Realistic speed limits not depressed ones that reduce concentration and road safety.
- Proper road user safety education for all, enabling us to share the roads in harmony and with equal responsibility. Respect for drivers rather than regarding us as 2nd-class citizens.
- Respect instead of being used as cash cows. No to political correctness or junk science being used as an excuse for increased parking charges and other driver taxes. No national or local tolls, road pricing schemes or workplace parking levies ('a tax on going to work').
- Removal of vehicle-damaging road humps. Repairing potholes promptly - and properly.
